⌗ Github 🔗 Projects

🪪 Summary

Creative and performance-driven Frontend Developer with solid experience building dynamic, scalable web applications, including e-commerce platforms and portfolio websites. Proficient in React.js and Next.js with a strong command of TypeScript, Tailwind CSS, REST APIs, and responsive design principles. Skilled in integrating third-party services (e.g., Firebase, Cloudinary, Paystack),

💼 Work Experience

Freelance Front-End Developer (Remote)   2024 – Present
- Built and deployed responsive websites and web apps for clients across various industries including e-commerce, landing pages, and portfolio sites.
- Used React.js, Next.js, and Tailwind CSS to create dynamic UIs and integrate RESTful APIs.
- Implemented features such as user authentication, product listings, and interactive dashboards.
- Managed end-to-end development: from gathering client requirements to testing and deployment.
- Prioritized maintainable code, performance optimization, and cross-browser compatibility.

Frontend Intern(Remote), *Uranium Technology – Lagos, Nigeria*   06/2025 – Present
- Assisted in managing and maintaining the company's Odoo-based website, ensuring consistent UI/UX quality across modules.
- Customized frontend templates using HTML, CSS, and JavaScript to align with brand requirements.
- Collaborated with the technical team to debug layout issues and improve page responsiveness across devices.
- Gained hands-on experience working within an ERP system, enhancing both technical and business process understanding.

🎓 Key Skills

Tech Stack: HTML & CSS │ React.js │ Next.js │ TypeScript │ REST APIs

Tools: Version Control(Github) │ Developer Tools │ Figma

Libraries & Frameworks: Cloudinary │ Firebase │ Framer Motion

Soft Skills: │ Teamwork & Leadership │ Problem-Solving │ Time Management │ Communication │ Professionalism & Ethics

📂 Projects

Rashford3D ⧉
An end-to-end electronic e-commerce platform

Portfolio Website ⧉
A sleek, multi-pages portfolio website tailored for a product manager, highlighting key projects, skills, certifications, and a professional journey. Optimized for fast load times and mobile experience.

NGbooking Website ⧉
A clone of a real-world hotel website featuring interactive booking forms, room showcases, image sliders, sign in & up page, and customer review sections. Built to demonstrate layout replication and user-centric UI design
